

The Laser Fault Locator FOD 111

- Patchcord Testing
- FTTx Drop Cable Continuity Test
- Fault Detection
- Band Detection

The Laser Fault Locator FOD 111 is a Visible Laser Source with an output power of 1 mW in SM or MM fiber. The changeable adapter allows to clean or repolish internal connector without opening the instrument. Powered by two AAA battery. Supplied with Universal 2.5 mm changeable adapter.

Soft leather case included.

RoHS Compliant

SPECIFICATIONS

Output Power	1 mW CW
Wavelength	635 nm
Spectral Width @ 20°C	3 nm
Fiber	SM&MM
Battery lifetime	16 Hours
Power	2x AAA battery
Dimensions / Weight	96x47x24 mm / 50 g
Operating temperature	-10°C to +50°C

Warranty: 3 YEARS
